MYR Group Inc. Announces Third-Quarter and First Nine-Months 2022 Results

Henderson, Colo., October 26, 2022 – **MYR Group Inc. (“MYR”) (NASDAQ: MYRG)**, a holding company of leading specialty contractors serving the electric utility infrastructure, commercial and industrial construction markets in the United States and Canada, announced today its third-quarter and first nine-months 2022 financial results.

Highlights for Third Quarter 2022

- Record high quarterly revenues of \$799.8 million
- Quarterly net income of \$18.4 million and earnings per diluted share of \$1.09
- Quarterly EBITDA of \$40.3 million
- Record backlog of \$2.48 billion

Management Comments

Rick Swartz, MYR’s President and CEO, said, “Our record revenue of \$799.8 million in the third quarter demonstrates our solid position in the market and our ability to generate growth. Our backlog at the end of the third quarter was a record \$2.48 billion, resulting from excellent project delivery, collaborative customer relationships and competitiveness in the market.” Mr. Swartz continued, “We continue to build upon our success in growing the business as demonstrated by our third quarter performance. Our core markets remain active, presenting exciting opportunities to deepen and expand our market presence.”

Third Quarter Results

MYR reported third-quarter 2022 revenues of \$799.8 million, an increase of \$189.6 million, or 31.1 percent, compared to the third quarter of 2021. Specifically, our Transmission and Distribution (“T&D”) segment reported revenues of \$452.0 million for the third quarter of 2022, an increase of \$145.5 million, or 47.5 percent, from the third quarter of 2021, primarily due to an increase in revenue on transmission projects, an increase in revenues on distribution projects, including incremental distribution revenues from the acquired Powerline Plus Companies. Our Commercial and Industrial (“C&I”) segment reported revenues of \$347.8 million for the third quarter of 2022, an increase of \$44.2 million, or 14.6 percent, from the third quarter of 2021, primarily due to higher revenue in certain geographical areas.

Consolidated gross profit in third quarter of 2022 was \$86.3 million, an increase of \$2.4 million or 2.9 percent, from the third quarter of 2021. The increase in gross profit was due to higher revenues, partially offset by lower margins. Gross margin was 10.8 percent for the third quarter of 2022 compared to 13.8 percent for the third quarter of 2021. The decrease in gross margin was primarily due to overall cost increases mainly associated with supply chain disruptions and inflation. Gross margin was also negatively impacted by labor inefficiencies and inclement weather experienced on certain projects. These margin decreases were partially offset by a favorable change order adjustment and better-than-anticipated productivity on certain projects. Changes in estimates of gross profit on certain projects resulted in a gross margin decrease of 0.3 percent and an increase of 1.4 percent for the third quarter of 2022 and 2021, respectively.

Selling, general and administrative expenses (“SG&A”) increased to \$58.9 million in the third quarter of 2022, compared to \$53.1 million for the third quarter of 2021. The period-over-period increase was primarily due to an increase in employee-related expenses to support the growth in our operations and the acquisition of the Powerline Plus Companies, partially offset by a decrease in employee incentive compensation costs.

Interest expense increased to \$1.1 million in the third quarter of 2022, compared to \$0.3 million for the third quarter of 2021. The period-over-period increase was primarily due to higher outstanding debt and interest rates during the third quarter of 2022 as compared to the third quarter of 2021.

Income tax expense was \$7.7 million for the third quarter of 2022, with an effective tax rate of 29.4 percent, compared to income tax expense of \$7.6 million for the third quarter of 2021, with an effective tax rate of 24.6 percent. The period-over-period increase in tax rate was primarily due to an increase in permanent difference items and a tax benefit associated with the reversal of the global intangible low tax income (“GILTI”) during the third quarter of 2021.

For the third quarter of 2022, net income was \$18.4 million, or \$1.09 per diluted share, compared to \$23.2 million, or \$1.35 per diluted share, for the same period of 2021. Third-quarter 2022 EBITDA, a non-GAAP financial measure, was \$40.3 million, compared to \$42.3 million in the third quarter of 2021.

First Nine-Months Results

MYR reported first nine-months 2022 revenues of \$2.14 billion, an increase of \$292.4 million, or 15.8 percent, compared to the first nine months of 2021. Specifically, the T&D segment reported revenues of \$1.23 billion, an increase of \$283.8 million, or 29.9 percent, from the first nine months of 2021, primarily due to an increase in revenue on transmission projects, an increase in revenues on distribution projects, including incremental distribution revenues from the Powerline Plus Companies. The C&I segment reported revenues of \$912.5 million, an increase of \$8.5 million, or 0.9 percent from the first nine months of 2021, primarily due to higher revenue in certain geographical areas.

Consolidated gross profit increased to \$247.7 million in the first nine months of 2022, an increase of \$5.8 million or 2.4 percent, from the first nine months of 2021. The increase in gross profit was due to higher revenues, partially offset by lower margins. Gross margin was 11.5 percent for the first nine months of 2022 compared to 13.1 percent for the first nine months of 2021. The decrease in gross margin was primarily due to overall cost increases mainly associated with supply chain disruptions, inflation and continued impacts from the COVID-19 pandemic, some of which also caused labor and material inefficiencies on certain projects. Gross margin was also negatively impacted by an unfavorable change order adjustment on a project and inclement weather experienced on certain projects. These margin decreases were partially offset by better-than-anticipated productivity, favorable job close outs and favorable change order adjustments on certain projects. Changes in estimates of gross profit on certain projects were not significant for the first nine months of 2022 and resulted in gross margin increase of 0.4 percent for the first nine months of 2021.

SG&A increased to \$164.5 million in the first nine months of 2022, compared to \$154.6 million for the first nine months of 2021. The period-over-period increase was primarily due to the acquisition of Powerline Plus Companies and an increase in employee-related expenses to support the growth in our operations, partially offset by a decrease in employee incentive compensation costs.

Amortization of intangible assets increased to \$6.8 million in the first nine months of 2022, compared to \$1.7 million for the first nine months of 2021. The period-over-period increase was primarily due to amortization related to certain intangibles acquired with the Powerline Plus Companies.

Interest expense increased to \$2.2 million in the first nine months of 2022, compared to \$1.5 million for the first nine months of 2021. The period-over-period increase was primarily due to higher outstanding debt and interest rates during the first nine months of 2021 as compared to the first nine months of 2021.

Other income, net increased to \$2.5 million in the first nine months of 2022, compared to \$0.2 million for the first nine months of 2021. The change was largely due to funds received under the Canadian Emergency Wage Subsidy program, which were attributable to a C&I segment company.

Income tax expense was \$19.6 million for the first nine months of 2022, with an effective tax rate of 25.0 percent, compared to income tax expense of \$22.5 million for the first nine months of 2021, with an effective tax rate of 25.9 percent. The period-over-period decrease in tax rate was primarily due to a favorable impact from stock compensation excess tax benefits, partially offset by an increase in other permanent difference items.

For the first nine months of 2022, net income was \$58.8 million, or \$3.45 per diluted share, compared to \$64.3 million, or \$3.75 per diluted share, for the same period of 2021.

Backlog

As of September 30, 2022, MYR's backlog was \$2.48 billion, compared to \$2.44 billion as of June 30, 2022. As of September 30, 2022, T&D backlog was approximately \$1.02 billion, and C&I backlog was approximately \$1.45 billion. Total backlog at September 30, 2022 increased \$842.8 million, or 51.6 percent, from the \$1.63 billion reported at September 30, 2021.

Balance Sheet

As of September 30, 2022, MYR had \$303.9 million of borrowing availability under its \$375 million revolving credit facility.

Non-GAAP Financial Measures

To supplement MYR's financial statements presented in accordance with generally accepted accounting principles in the United States ("GAAP"), MYR uses certain non-GAAP measures. Reconciliation to the nearest GAAP measures of all non-GAAP measures included in this press release can be found at the end of this release. MYR's definitions of these non-GAAP measures may differ from similarly titled measures used by others. These non-GAAP measures should be considered supplemental to, and not a substitute for, financial information prepared in accordance with GAAP.

MYR believes that these non-GAAP measures are useful because they (i) provide both management and investors meaningful supplemental information regarding financial performance by excluding certain expenses and benefits that may not be indicative of recurring core business operating results, (ii) permit investors to view MYR's performance using the same tools that management uses to evaluate MYR's past performance, reportable business segments and prospects for future performance, (iii) publicly disclose results that are relevant to financial covenants included in MYR's credit facility and (iv) otherwise provide supplemental information that may be useful to investors in evaluating MYR.

Conference Call

MYR will host a conference call to discuss its third-quarter 2022 results on Thursday, October 27, 2022 at 8:00 a.m. Mountain time. To participate via telephone and join the call live, please register in advance here: <https://register.vevent.com/register/BI62e6b8d53abf48b98637a9d1d2422d86>. Upon registration, telephone participants will receive a confirmation email detailing how to join the conference call, including the dial-in number and a unique passcode. Participants may access the audio-only webcast of the conference call from the Investors page of MYR Group's website at myrgroup.com. A replay of the webcast will be available for seven days.

About MYR Group Inc.

MYR Group is a holding company of leading, specialty electrical contractors providing services throughout the United States and Canada through two business segments: Transmission & Distribution (T&D) and Commercial & Industrial (C&I). MYR Group subsidiaries have the experience and expertise to complete electrical installations of any type and size. Their comprehensive T&D services on electric transmission, distribution networks, substation facilities and clean energy projects include design, engineering, procurement, construction, upgrade, maintenance and repair services. T&D customers include investor-owned utilities, cooperatives, private developers, government-funded utilities, independent power producers, independent transmission companies, industrial facility owners and other contractors. Through their C&I segment, they provide a broad range of services which include the design, installation, maintenance and repair of commercial and industrial wiring generally for airports, hospitals, data centers, hotels, stadiums, commercial and industrial facilities, clean energy projects, manufacturing plants, processing facilities, water/waste-water treatment facilities, mining facilities, intelligent transportation systems, roadway lighting and signalization. C&I customers include general contractors, commercial and industrial facility owners, government agencies and developers. For more information, visit myrgroup.com.

Forward-Looking Statements

Various statements in this announcement, including those that express a belief, expectation, or intention, as well as those that are not statements of historical fact, are forward-looking statements. The forward-looking statements may include projections and estimates concerning the timing and success of specific projects and our future production, revenue, income, capital spending, segment improvements and investments. Forward-looking statements are generally accompanied by words such as "anticipate," "believe," "estimate," "expect," "intend," "likely," "may," "objective," "outlook," "plan," "project," "possible," "potential," "should," "unlikely," or other words that convey the uncertainty of future events or outcomes. The forward-looking statements in this announcement speak only as of the date of this announcement. We disclaim any obligation to update these statements (unless required by securities laws), and we caution you not to rely on them unduly. We have based these forward-looking statements on our current expectations and assumptions about future events. While our management considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties, most of which are difficult to predict and many of which are beyond our control. No forward-looking statement can be guaranteed and actual results may differ materially from those projected. Forward-looking statements in this announcement should be evaluated together with the many uncertainties that affect MYR's business, particularly those mentioned in the risk factors and cautionary statements in Item 1A. of MYR's Annual Report on Form 10-K for the fiscal year ended December 31, 2021, and in any risk factors or cautionary statements contained in MYR's subsequent Quarterly Reports on Form 10-Q or Current Reports on Form 8-K.

MYR GROUP INC.
Unaudited Performance Measures and Reconciliation of Non-GAAP Measures
As of September 30, 2022, 2021 and 2020

(in thousands)	September 30, 2022	September 30, 2021	
Reconciliation of Book Value to Tangible Book Value:			
Book value (total stockholders' equity)	\$ 535,877	\$ 496,180	
Goodwill and intangible assets	(204,275)	(115,697)	
Tangible Book Value (10)	\$ 331,602	\$ 380,483	
Reconciliation of Book Value per Period End Share to Tangible Book Value per Period End Share:			
Book value per period end share	\$ 31.90	\$ 28.90	
Goodwill and intangible assets per period end share	(12.16)	(6.74)	
Tangible Book Value per Period End Share (11)	\$ 19.74	\$ 22.16	
Calculation of Period End Shares:			
Shares outstanding	16,607	16,870	
Plus: common equivalents	194	299	
Period End Shares (16)	16,801	17,169	
	September 30, 2022	September 30, 2021	September 30, 2020
(in thousands)			
Reconciliation of Invested Capital to Stockholders Equity:			
Book value (total stockholders' equity)	\$ 535,877	\$ 496,180	\$ 408,604
Plus: total funded debt	85,912	5,011	70,194
Less: cash and cash equivalents	(35,767)	(73,006)	(18,946)
Invested Capital	\$ 586,022	\$ 428,185	\$ 459,852
Average Invested Capital (17)	\$ 507,104	\$ 444,019	

See notes at the end of this earnings release.

- (1) Last-twelve-months earnings per share is the sum of earnings per share reported in the last four quarters.
- (2) Last-twelve-months weighted average basic and diluted shares were determined by adding the weighted average shares reported for the last four quarters and dividing by four.
- (3) Funded debt includes outstanding borrowings under our revolving credit facility and our outstanding equipment notes.
- (4) These financial performance measures are provided as supplemental information to the financial statements. These measures are used by management to evaluate our past performance, our prospects for future performance and our ability to comply with certain material covenants as defined within our credit agreement, and to compare our results with those of our peers. In addition, we believe that certain of the measures, such as book value, tangible book value, free cash flow, asset turnover, return on equity, and debt leverage are measures that are monitored by sureties, lenders, lessors, suppliers and certain investors. Our calculation of each measure is described in the following notes; our calculation may not be the same as the calculations made by other companies.
- (5) EBIA, net of taxes is defined as net income plus net interest plus amortization of intangible assets, less the tax impact of net interest and amortization of intangible assets. The tax impact of net interest and amortization of intangible assets is computed by multiplying net interest and amortization of intangible assets by the effective tax rate. Management uses EBIA, net of taxes, to measure our results exclusive of the impact of financing and amortization of intangible assets costs.
- (6) EBITDA is defined as earnings before interest, taxes, depreciation and amortization. EBITDA is not recognized under GAAP and does not purport to be an alternative to net income as a measure of operating performance or to net cash flows provided by operating activities as a measure of liquidity. Certain material covenants contained within our credit agreement are based on EBITDA with certain additional adjustments, including our interest coverage ratio and leverage ratio, which we must comply with to avoid potential immediate repayment of amounts borrowed or additional fees to seek relief from our lenders. In addition, management considers EBITDA a useful measure because it provides MYR Group Inc. and its investors with an additional tool to compare our operating performance on a consistent basis by removing the impact of certain items that management believes to not directly reflect the company's core operations. Management further believes that EBITDA is useful to investors and other external users of our financial statements in evaluating the company's operating performance and cash flow because EBITDA is widely used by investors to measure a company's operating performance without regard to items such as interest expense, taxes, depreciation and amortization, which can vary substantially from company to company depending upon accounting methods and book value of assets, useful lives placed on assets, capital structure and the method by which assets were acquired.
- (7) EBITDA per diluted share is calculated by dividing EBITDA by the weighted average number of diluted shares outstanding for the period. EBITDA per diluted share is not recognized under GAAP and does not purport to be an alternative to income per diluted share.
- (8) Free cash flow, which is defined as cash flow provided by operating activities minus cash flow used in purchasing property and equipment, is not recognized under GAAP and does not purport to be an alternative to net income, cash flow from operations or the change in cash on the balance sheet. Management views free cash flow as a measure of operational performance, liquidity and financial health.
- (9) Book value per period end share is calculated by dividing total stockholders' equity at the end of the period by the period end shares outstanding.
- (10) Tangible book value is calculated by subtracting goodwill and intangible assets outstanding at the end of the period from stockholders' equity. Tangible book value is not recognized under GAAP and does not purport to be an alternative to book value or stockholders' equity.
- (11) Tangible book value per period end share is calculated by dividing tangible book value at the end of the period by the period end number of shares outstanding. Tangible book value per period end share is not recognized under GAAP and does not purport to be an alternative to income per diluted share.
- (12) The funded debt to equity ratio is calculated by dividing total funded debt at the end of the period by total stockholders' equity at the end of the period.
- (13) Asset turnover is calculated by dividing the current period revenue by total assets at the beginning of the period.
- (14) Return on assets is calculated by dividing net income for the period by total assets at the beginning of the period.
- (15) Return on equity is calculated by dividing net income for the period by total stockholders' equity at the beginning of the period.
- (16) Period end shares is calculated by adding average common stock equivalents for the quarter to the period end balance of common stock outstanding. Period end shares is not recognized under GAAP and does not purport to be an alternative to diluted shares. Management views period end shares as a better measure of shares outstanding as of the end of the period.
- (17) Average invested capital is calculated by adding net funded debt (total funded debt less cash and marketable securities) to total stockholders' equity and calculating the average of the beginning and ending of each period.
- (18) Return on invested capital is calculated by dividing EBIA, net of taxes, less any dividends, by average invested capital. Return on invested capital is not recognized under GAAP, and is a key metric used by management to determine our executive compensation.
