MYR GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except share and per share data)

1. Organization and Business

MYR Group Inc. (the "Company") consists of the following wholly-owned subsidiaries: The L. E. Myers Co., a Delaware corporation; Hawkeye Construction, Inc., an Oregon corporation; Harlan Electric Company, a Michigan corporation; Sturgeon Electric Company, Inc., a Michigan corporation; MYR Transmission Services, Inc., a Delaware corporation; ComTel Technology Inc., a Colorado corporation; MYRpower, Inc., a Delaware corporation and Great Southwestern Construction, Inc., a Colorado corporation.

The Company performs construction services in two business segments: Transmission and Distribution ("T&D") and Commercial and Industrial ("C&I"). T&D customers include electric utilities, cooperatives and municipalities nationwide. The Company's broad range of services includes design, engineering, procurement, construction, upgrade, maintenance and repair services, with a particular focus on construction, maintenance and repair throughout the continental United States. The Company also provides C&I electrical contracting services to facility owners and general contractors in the western United States.

2. Basis of Presentation

Interim Consolidated Financial Information

The accompanying consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial reporting and with the instructions pursuant to the rules and regulations of the SEC. Accordingly, the financial statements do not include all the disclosures required by U.S. GAAP for complete financial statements. In the opinion of management, the accompanying consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to state fairly the financial condition of the Company as of June 30, 2010, and the results of operations, and cash flows for the three and six months ended June 30, 2009 and 2010. The results of operations for the three and six months ended June 30, 2010 are not necessarily indicative of the results for the full year or the results for any future periods. The consolidated balance sheet as of December 31, 2009 has been derived from the audited financial statements as of that date. These financial statements should be read in conjunction with the audited financial statements and related notes for the year ended December 31, 2009, included in the Company's annual report on Form 10-K.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the period reported. The most significant estimates are related to the accounts receivable reserve, estimates to complete on contracts, insurance reserves, tax reserves, recoverability of goodwill and intangibles, and estimates surrounding stock-based compensation. Actual results could differ from these estimates.

MYR GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Amounts in thousands, except share and per share data)

2. Basis of Presentation (Continued)

Recently Issued Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued an accounting standard update to ASC Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"), which required new disclosures and clarified existing disclosures about fair value measurement. Specifically, this update amends ASC 820 to now require: (a) a reporting entity to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and to describe the reasons for the transfers; and (b) in the reconciliation for fair value measurements using significant unobservable inputs, a reporting entity should present separately information about purchases, sales, issuances, and settlements. In addition, this update clarifies the requirements of the following existing disclosures: (a) for purposes of reporting fair value measurement for each class of assets and liabilities, a reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities; and (b) a reporting entity should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. This update became effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements, which will become effective for interim and reporting periods beginning after December 15, 2010. Although the adoption of this standard modification did not have an impact on the Company's consolidated financial condition, results of operations or cash flows, there may be impacts to the Company's financial statement disclosures in the future.

In February 2010, the FASB issued an accounting standard update to ASC Topic 855, *Subsequent Events*, which eliminated the requirement for an SEC filer to disclose the date through which subsequent events have been evaluated in both issued and revised financial statements. This standard became effective upon issuance, with limited exceptions. Although, the adoption of this standard update did not have an impact on the Company's consolidated financial condition, results of operations or cash flows, there were no material impacts to the Company's financial statement disclosures.

3. Fair Value Measurements

The accounting guidance provided by ASC 820 defines fair value, establishes methods used to measure fair value, and expands disclosure requirements about fair value measurements. The fair value accounting guidance establishes a three-tier hierarchy of fair value measurement, which prioritizes the inputs used in measuring fair value based upon their degree of availability in external active markets. These tiers include: Level 1 (the highest priority), defined as observable inputs, such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3 (the lowest priority), defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

As of June 30, 2010, the carrying value of cash and cash equivalents, accounts receivable and payable, accrued liabilities, and certain other financial assets and liabilities approximated fair value due to the short maturities of these instruments.

As of June 30, 2010, the Company held cash equivalents that were subject to the disclosure requirements of the fair value accounting guidance. These items included money market funds held in deposit at a national bank and short-term certificates of deposit held on account under the Certificate

MYR GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Amounts in thousands, except share and per share data)

3. Fair Value Measurements (Continued)

of Deposit Account Registry Services (CDARS) program. The combined carrying value of the Company's cash equivalents was \$36,635, which was equal to the fair value at June 30, 2010 based upon Level 1 inputs.

The carrying amount reported in the consolidated balance sheet as of June 30, 2010 for long term debt was \$30,000. Using a discounted cash flow technique that incorporates a market interest rate adjusted for risk profile based upon Level 3 inputs, the Company estimated the fair value of its debt to be \$29,524 as of June 30, 2010.

4. Supplemental Cash Flows

Supplemental disclosures of cash flow information are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2009	2010	2009	2010
Cash paid during the period for:				
Income taxes	\$ 4,649	\$ 1,524	\$ 4,942	\$ 2,873
Interest expense	196	186	399	369
Noncash investing activities:				
Acquisition of property and equipment for which payment was pending	23	1,171	23	1,171
Acquisition of property and equipment through like-kind exchange of similar assets	—	2,924	—	2,924
Acquisition of property and equipment under capital lease obligations	—	—	45	—

As of December 31, 2009, the Company had purchased \$202 of property and equipment for which payment was pending, all of which was paid during the six months ended June 30, 2010. As of June 30, 2010, the Company recorded additional property and equipment purchases of approximately \$1,171 for which payment was pending.

5. Contracts in Process

The net asset (liability) position for contracts in process consisted of the following:

	December 31, 2009	June 30, 2010
Costs incurred on uncompleted contracts	\$ 839,315	\$ 818,866
Estimated earnings	95,669	92,482
	934,984	911,348
Less: Billings to date	929,907	905,312
	<u>\$ 5,077</u>	<u>\$ 6,036</u>

MYR GROUP INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Amounts in thousands, except share and per share data)****5. Contracts in Process (Continued)**

The net asset (liability) position for contracts in process included in the accompanying consolidated balance sheets was as follows:

	<u>December 31,</u> <u>2009</u>	<u>June 30,</u> <u>2010</u>
Costs and estimated earnings in excess of billings on uncompleted contracts	\$ 30,740	\$ 29,812
Billings in excess of costs and estimated earnings on uncompleted contracts	(25,663)	(23,776)
	<u>\$ 5,077</u>	<u>\$ 6,036</u>

6. Income Taxes

The difference between the U.S. federal statutory tax rate of 35% and the Company's effective tax rates for the three and six months ended June 30, 2009 and 2010 was principally due to state income taxes.

The Company had approximately \$836 and \$840 of total unrecognized tax benefits as of December 31, 2009 and June 30, 2010, respectively, which was included in other liabilities in the accompanying consolidated balance sheets. For the six months ended June 30, 2010, the Company recorded an additional \$87 in unrecognized tax benefits related to the net activity of current and prior year positions, which was offset by a reduction in unrecognized tax benefits of \$83 related to the closure of a federal tax audit for the 2007 tax year.

The Company's policy is to recognize interest and penalties related to income tax liabilities as a component of income tax expense in the consolidated statements of operations. The amount of interest and penalties charged to income tax expense as a result of the unrecognized tax benefits was an expense of \$16 and a benefit of \$12, for the six months ended June 30, 2009 and 2010, respectively.

The Company does not anticipate that there will be any material changes to the total unrecognized tax benefits within the next 12 months.

The Company is subject to taxation in various jurisdictions. The Company continues to remain subject to examination by U.S. federal authorities for certain open tax years (2006, 2008 and 2009), and by various state authorities for the years 2005 through 2009.

7. Commitments and Contingencies***Letters of Credit***

At both December 31, 2009 and June 30, 2010, the Company had one outstanding irrevocable standby letter of credit totaling \$15,000 related to the Company's payment obligation under its insurance programs.

MYR GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Amounts in thousands, except share and per share data)

7. Commitments and Contingencies (Continued)

Leases

The Company leases real estate and construction and certain office equipment under operating leases with terms ranging from one to five years. Future minimum lease payments for these operating leases subsequent to June 30, 2010, are as follows: \$4,136 for the remainder of 2010, \$5,892 for 2011, \$3,557 for 2012, \$1,288 for 2013 \$225 for 2014, and \$44 for 2015.

The Company has guaranteed the residual value of the underlying assets under certain equipment operating leases at the date of termination of such leases. The Company has agreed to pay any differences between this residual value and the fair market value of each underlying asset as of the lease termination date. As of June 30, 2010, the maximum guaranteed residual value was approximately \$1,376. The Company does not believe that significant payments will be made as a result of the difference between the fair market value of the leased equipment and the guaranteed residual value. However, there can be no assurance that future payments will not be required.

Purchase Commitments for Construction Equipment

As of June 30, 2010, the Company has approximately \$1,699 in outstanding purchase obligations for certain construction equipment with cash outlay requirements scheduled to occur over the next three months.

Employment Agreements

As of December 31, 2009, the Company had recorded a contingent termination payment liability of approximately \$1,628 related to the employment agreements it entered into with six executive officers in December 2007, which were amended in December 2008 (each an "Employment Agreement"). The liability recorded, which was included in other current liabilities in the accompanying consolidated balance sheet as of December 31, 2009, represented the amount the six executive officers would have been eligible to receive under the terms of the original Employment Agreements if they were to voluntarily terminate employment without "good reason" (as defined in the Employment Agreements) at any time.

In March 2010, the Company amended and restated the Employment Agreements, which, among other things, removed the provision for severance pay subject to a voluntary termination without good reason. Therefore, the Company has eliminated the \$1,628 liability related to this provision during the six months ended June 30, 2010. The benefit of reversing this liability was included as a reduction to selling, general and administrative expenses in the accompanying consolidated statement of operations.

Surety Bonds

In certain circumstances, the Company is required to provide performance bonds in connection with its future performance on contractual commitments. The Company has indemnified its sureties for any expenses paid out under these performance bonds. As of June 30, 2010, the total amount of outstanding performance bonds was approximately \$497,765, and the estimated cost to complete these bonded projects was approximately \$112,588.

MYR GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Amounts in thousands, except share and per share data)

7. Commitments and Contingencies (Continued)

Litigation and Other Legal Matters

The Company is from time to time party to various lawsuits, claims, and other legal proceedings that arise in the ordinary course of business. These actions typically seek, among other things, compensation for alleged personal injury, breach of contract and/or property damages, punitive damages, civil penalties or other losses, or injunctive or declaratory relief. With respect to all such lawsuits, claims and proceedings, the Company records reserves when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. The Company does not believe that any of these proceedings, separately or in the aggregate, will have a material adverse effect on the Company's financial position, results of operations or cash flows.

The Company is routinely subject to other civil claims, litigation and arbitration, and regulatory investigations arising in the ordinary course of our present business as well as in respect of our divested businesses. Some of these include claims related to our current services and operations, and asbestos-related claims concerning historic operations of a predecessor affiliate. The Company believes that it has strong defenses to these claims as well as adequate insurance coverage in the event any asbestos-related claim is not resolved in our favor. These claims have not had a material impact on the Company to date and the Company believes that the likelihood that a future material adverse outcome will result from these claims is remote. However, if facts and circumstances change in the future, the Company cannot be certain that an adverse outcome of one or more of these claims would not have a material adverse effect on the Company's financial condition, results of operations, or cash flows.

8. Stock-Based Compensation

In November 2007, the Board of Directors approved the MYR Group Inc. Long-Term Incentive Plan (the "LTIP"). Upon the adoption of the LTIP, the Company elected to no longer grant awards under its 2006 Stock Option Plan. The LTIP provides for grants of (a) incentive stock options qualified as such under U.S. federal income tax laws, (b) stock options that do not qualify as incentive stock options, (c) stock appreciation rights, (d) restricted stock awards, (e) performance awards, (f) phantom stock, (g) stock bonuses, (h) dividend equivalents, or (i) any combination of such awards. The LTIP permits the granting of up to 2,000,000 shares of common stock to directors, officers and employees of the Company.

Stock Options

On March 24, 2010, the Company granted options to purchase 106,912 shares of the Company's common stock to various employees, including the Company's executive officers. These new stock option awards will vest ratably over a three-year period. The grant date fair value of these option awards was approximately \$8.72 per share, using the Black-Scholes-Merton option-pricing model. These stock options are subject to certain claw-back provisions, as defined in the grant agreement.

Using a weighted-average grant date fair value of approximately \$7.22 per share for all outstanding option awards, the Company recognized stock compensation expense related to all stock options granted under the LTIP of approximately \$462 and \$703 for the six months ended June 30, 2009 and 2010, respectively, which is included in selling, general and administrative expenses in the accompanying consolidated statements of operations. The stock compensation expense for the six months ended

(Amounts in thousands, except share and per share data)

8. Stock-Based Compensation (Continued)

June 30, 2010, included approximately \$180 related to the accelerated vesting of stock options for one of the Company's executive officers as a result of him reaching normal retirement age, as defined in his stock option grant agreements.

As of June 30, 2010, there was approximately \$2,047 of total unrecognized compensation cost related to stock options granted under the LTIP, net of estimated forfeitures. This cost is expected to be recognized over a weighted average vesting period of approximately 2.0 years. Total unrecognized compensation cost will be adjusted for any future changes in estimated and actual forfeitures.

During the full year 2009, the Company issued 94,610 new shares to option holders upon the exercise of vested stock options. During the six months ended June 30, 2010, the Company issued 103,208 new shares to option holders upon the exercise of vested stock options. Cash received from option exercises for the six months ended June 30, 2009 and 2010 was \$134 and \$506, respectively. The excess tax benefit expected to be realized from option exercises for the six months ended June 30, 2009 and 2010 was \$69 and \$148, respectively. The total intrinsic value of stock options exercised during the six months ended June 30, 2009 and 2010 was \$536 and \$1,383, respectively.

It is the Company's policy to issue new shares upon the exercise of stock options. The Company has also been given authorization from the Board of Directors to use its discretion to repurchase shares from time-to-time based upon the volume of stock options that have been exercised. To date, the Company has not made any such repurchases.

Restricted Stock

On March 24, 2010, the Company granted restricted stock awards covering 50,323 shares of common stock to various employees, including the Company's executive officers, and 3,492 shares of common stock to certain eligible members of the Board of Directors. The restricted stock awards granted to employees will vest ratably over a five-year period, while the restricted stock awards granted to the Board of Directors will vest ratably over a three-year period. During the restriction period, the restricted stockholders are entitled to the same rights of a common stockholder with respect to the shares, including the right to vote and receive dividends. These restricted stock awards are also subject to certain claw-back provisions, as defined in the grant agreements.

The grant date fair value of the restricted stock awards was \$17.18 per share, which was equal to the closing trading price on the date of grant. Stock compensation expense related to these awards will be amortized on a straight-line basis over the applicable vesting period, net of estimated forfeitures. For the six months ended June 30, 2010, the Company recognized stock compensation expense of approximately \$51, which was included in selling, general and administrative expenses in the accompanying consolidated statement of operations. There were no restricted stock awards granted prior to 2010.

As of June 30, 2010, there was approximately \$859 of total unrecognized compensation cost related to non-vested restricted stock granted under the LTIP. This cost is expected to be recognized over a weighted average vesting period of approximately 4.6 years. Total unrecognized compensation cost will be adjusted for any future changes in estimated and actual forfeitures.

MYR GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Amounts in thousands, except share and per share data)

8. Stock-Based Compensation (Continued)

Performance Awards

On March 24, 2010, the Company granted performance stock awards covering 40,741 shares of common stock to certain key management personnel, including the Company's executive officers. These performance stock awards will cliff vest on the third anniversary of the grant date, subject to the achievement of certain specified levels of the Company's return-on-equity ("ROE"), as defined in the grant agreements, over a performance measurement period from January 1, 2010 to December 31, 2012. If the Company achieves an ROE that is equal to or greater than the threshold ROE, as defined in the grant agreements, the payment of the performance stock awards will vary depending upon the actual ROE that the Company achieves over the performance period, with the potential payout ranging from a minimum of 50% to a maximum of 200% of the target award. However, if the Company were to achieve an ROE that is less than the threshold ROE, there would not be any payout under these awards and the awards would be forfeited. Additionally, these performance stock awards are subject to certain claw-back provisions, as defined in the grant agreements.

The grant date fair value of the performance stock awards was \$17.18 per share. The Company will recognize stock compensation expense related to these awards based upon its determination of the potential achievement of the ROE target at each reporting date, net of estimated forfeitures. The stock compensation expense to be recognized will be amortized on a straight-line basis over the three-year vesting period. For the six months ended June 30, 2010, the Company recognized stock compensation expense of approximately \$62, which was included in selling, general and administrative expenses in the accompanying consolidated statement of operations. There were no performance share awards granted prior to 2010.

As of June 30, 2010, there was approximately \$627 of total unrecognized compensation cost related to non-vested performance awards granted under the LTIP. This cost is expected to be recognized over a weighted average vesting period of approximately 2.7 years. Total unrecognized compensation cost will be adjusted for any future changes in estimated and actual forfeitures.

9. Segment Information

The information in the following table was derived from the segment's internal financial reports used for corporate management purposes:

	Three months ended June 30,		Six months ended June 30,	
	2009	2010	2009	2010
Contract revenues:				
T&D	\$ 124,873	\$ 107,763	\$ 224,550	\$ 210,597
C&I	38,050	32,522	71,308	78,577
	<u>\$ 162,923</u>	<u>\$ 140,285</u>	<u>\$ 295,858</u>	<u>\$ 289,174</u>
Operating income (loss):				
T&D	\$ 8,881	\$ 8,769	\$ 16,259	\$ 14,892
C&I	3,600	1,734	6,282	3,948
General Corporate	(4,995)	(4,665)	(10,023)	(8,291)
	<u>\$ 7,486</u>	<u>\$ 5,838</u>	<u>\$ 12,518</u>	<u>\$ 10,549</u>

10. Earnings Per Share

The Company calculates net income per common share in accordance with ASC Topic 260, *Earnings per Share*. Basic earnings per share is calculated by dividing net income by the weighted average number of shares outstanding for the reporting period. Diluted earnings per share is computed similarly, except that it reflects the potential dilutive impact that would occur if dilutive securities were exercised into common shares.

In March 2010, the Company issued certain restricted stock awards which vest over a service period that ranges from three to five years. These awards contain non-forfeitable rights to dividends or dividend equivalents. Awards containing such rights that are unvested are considered to be participating securities and would be included in the computation of earnings per share pursuant to the two-class method. Under the two-class method, earnings are allocated between the Company's common stockholders and participating securities. The application of the two-class method during the three and six months ended June 30, 2010, did not have a material impact on the earnings per share calculation.

Potential common shares related to the assumed exercise of stock options of 536,000 (with a weighted average exercise price of \$13.00) and 105,957 (with a weighted average exercise price of \$17.18), for the three and six months ended June 30, 2009 and 2010, respectively, were not included in the denominator of the diluted earnings per share calculation as the inclusion of such shares would either be anti-dilutive or the exercise price was greater than the average market price of the Company's common stock for the period. Additionally, for the three and six months ended June 30, 2010, potential common shares related to the unvested portion of performance awards of 40,256, with a weighted average grant date fair value of \$17.18, were also not included in the denominator of the diluted earnings per share calculation as the inclusion of such shares would be anti-dilutive.

MYR GROUP INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Amounts in thousands, except share and per share data)****10. Earnings Per Share (Continued)**

The weighted average number of common shares used to compute basic and diluted net income per share were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2009	2010	2009	2010
Weighted average basic common shares outstanding	19,727,048	19,867,530	19,719,969	19,844,457
Potential common shares arising from stock options and restricted stock	962,476	923,027	982,118	916,482
Weighted average diluted common shares outstanding	<u>20,689,524</u>	<u>20,790,557</u>	<u>20,702,087</u>	<u>20,760,939</u>

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The following discussion should be read in conjunction with the accompanying consolidated financial statements as of December 31, 2009 and June 30, 2010, and for the three and six months ended June 30, 2009 and 2010, and with our annual report on Form 10-K for the year ended December 31, 2009 (the "2009 Annual Report"). In addition to historical information, this discussion contains forward-looking statements that involve risks, uncertainties and assumptions that could cause actual results to differ materially from management's expectations. Factors that could cause such differences are discussed herein under the captions labeled "Cautionary Statement Concerning Forward-Looking Statements and Information" and "Risk Factors", as well as in the 2009 Annual Report. We assume no obligation to update any of these forward-looking statements.

Overview

We are a leading specialty contractor serving the electrical infrastructure market in the United States. We are one of the largest national contractors servicing the T&D sector of the United States electric utility industry. Our T&D customers include electric utilities, cooperatives and municipalities. We provide a broad range of services which includes design, engineering, procurement, construction, upgrade, maintenance and repair services, with a particular focus on construction, maintenance and repair throughout the continental United States. We also provide C&I electrical contracting services to facility owners and general contractors in the western United States.

We had consolidated revenues, for the six months ended June 30, 2010, of \$289.2 million, of which 72.8% was attributable to our T&D customers and 27.2% was attributable to our C&I customers. For the six months ended June 30, 2010, our net income and EBITDA(1) were \$6.1 million and \$18.4 million, respectively, compared to \$7.2 million and \$18.9 million for the six months ended June 30, 2009.

Our historical growth has been driven primarily by successful bids for, and execution of, large projects; our ability to capitalize on infrastructure spending in our markets; and the breadth of our customer base. We believe our centralized fleet and skilled workforce provide us with a competitive advantage. We expect to continue to grow our business organically, as well as selectively consider strategic acquisitions that may improve our competitive position within our existing markets, expand our geographic footprint or strengthen our fleet.

(1) EBITDA, a performance measure used by management, is defined as net income plus: interest income and expense, provision for income taxes and depreciation and amortization, as shown in the table below. EBITDA, a non-GAAP financial measure, does not purport to be an alternative to net income as a measure of operating performance or to net cash flows provided by operating activities as a measure of liquidity. Because not all companies use identical calculations, this presentation of EBITDA may not be comparable to other similarly-titled measures of other companies. We use, and we believe investors benefit from the presentation of, EBITDA in evaluating our operating performance because it provides us and our investors with an additional tool to compare our operating performance on a consistent basis by removing the impact of certain items that management believes do not directly reflect our core operations. We believe that EBITDA is useful to investors and other external users of our financial statements in evaluating our operating performance and cash flow because EBITDA is widely used by investors to measure a company's operating performance without regard to items such as interest expense, taxes, depreciation and amortization, which can vary substantially from company to company depending upon accounting methods and book value of assets, capital structure and the method by which assets were acquired.

Using EBITDA as a performance measure has material limitations as compared to net income, or other financial measures as defined under U.S. GAAP as it excludes certain recurring items which may be meaningful to investors. EBITDA excludes interest expense or interest income; however, as we have borrowed money in order to finance transactions and operations, or invested available cash to generate interest income, interest expense and interest income are elements of our cost structure and ability to generate revenue and returns for our stockholders. Further, EBITDA excludes depreciation and amortization; however, as we use capital and intangible assets to generate revenues, depreciation and amortization are a necessary element of our costs and ability to generate revenue. Finally, EBITDA excludes income taxes; however, as we are

Table of Contents

organized as a corporation, the payment of taxes is a necessary element of our operations. As a result of these exclusions from EBITDA, any measure that excludes interest expense, interest income, depreciation and amortization and income taxes has material limitations as compared to net income. When using EBITDA as a performance measure, management compensates for these limitations by comparing EBITDA to net income in each period, so as to allow for the comparison of the performance of the underlying core operations with the overall performance of the company on a full-cost, after tax basis. Using both EBITDA and net income to evaluate the business allows management and investors to (a) assess our relative performance against our competitors, and (b) monitor our capacity to generate returns for our stockholders.

The following table provides a reconciliation of net income to EBITDA:

(dollars in thousands)	Three months ended June 30,		Six months ended June 30,	
	2009	2010	2009	2010
Reconciliation of Net Income to EBITDA:				
Net Income	\$ 4,315	\$ 3,353	\$ 7,198	\$ 6,133
<i>Add/(subtract):</i>				
Interest expense (income), net	167	196	267	388
Provision for income taxes	2,953	2,236	4,942	3,945
Depreciation & amortization	3,214	3,892	6,463	7,916
EBITDA	\$ 10,649	\$ 9,677	\$ 18,870	\$ 18,382

We also use EBITDA as a liquidity measure. We believe that EBITDA is important in analyzing our liquidity because it is a key component of certain material covenants contained within our syndicated credit facility (the "Credit Agreement"). Non-compliance with these financial covenants under the Credit Agreement—our interest coverage ratio and our leverage ratio—could result in our lenders requiring us to immediately repay all amounts borrowed. If we anticipated a potential covenant violation, we would seek relief from our lenders, likely causing us to incur additional cost, and such relief might not be available, or if available, might not be on terms as favorable as those in the Credit Agreement. In addition, if we cannot satisfy these financial covenants, we would be prohibited under the Credit Agreement from engaging in certain activities, such as incurring additional indebtedness, making certain payments, and acquiring or disposing of assets. Based on the information above, management believes that the presentation of EBITDA as a liquidity measure would be useful to investors and relevant to their assessment of our capacity to service, or incur, debt.

The following table provides a reconciliation of EBITDA to net cash flows provided by operating activities:

(dollars in thousands)	Three months ended June 30,		Six months ended June 30,	
	2009	2010	2009	2010
Reconciliation of EBITDA to Net Cash Flows Provided By Operating Activities:				
EBITDA	\$ 10,649	\$ 9,677	\$ 18,870	\$ 18,382
<i>Add/(subtract):</i>				
Interest income (expense), net	(167)	(196)	(267)	(388)
Provision for income taxes	(2,953)	(2,236)	(4,942)	(3,945)
Depreciation & amortization	(3,214)	(3,892)	(6,463)	(7,916)
Adjustments to reconcile net income to net cash flows provided by operating activities	3,313	3,917	6,757	8,180
Changes in operating assets and liabilities	9,538	5,500	2,623	(910)
Net cash flows provided by operating activities	\$ 17,166	\$ 12,770	\$ 16,578	\$ 13,403

Backlog

We refer to our estimated revenue on uncompleted contracts, including the amount of revenue on contracts for which work has not begun, minus the revenue we have recognized under such contracts, as "backlog." We calculate backlog differently for different types of contracts. For our fixed-price contracts, we include the full remaining portion of the contract in our calculation of backlog. For our unit-price, time-and-equipment, time-and-materials, and cost-plus contracts, our projected revenue for a three-month period is included in the calculation of backlog, regardless of the duration of the contract,

[Table of Contents](#)

which typically exceeds such three-month period. These types of contracts are generally awarded as part of master service agreements ("MSAs") which typically have a one- to three-year duration. Given the duration of our contracts and MSAs and our method of calculating backlog, our backlog at any point in time may not accurately represent the revenue that we expect to realize during any period and our backlog as of the end of a fiscal year may not be indicative of the revenue we expect to earn in the following fiscal year and should not be viewed or relied upon as a stand-alone indicator.

Certain of the projects that we undertake are not completed in one accounting period. Revenue on construction contracts is recorded on the percentage-of-completion accounting method determined by the ratio of cost incurred to date on the contracts (excluding uninstalled direct materials) to management's estimates of total contract costs. Projected losses are provided for in their entirety when identified. There can be no assurance as to our customers' requirements or that our estimates of existing and future needs under MSAs, or the values of our cost or time-dependent contracts, are accurate and, therefore, our backlog may not be realized as part of our future revenues.

Subject to the foregoing discussions, the following table summarizes the amount of our backlog that we believed to be firm as of the dates shown and the amount of our current backlog that we reasonably estimate will not be recognized within the next twelve months (dollars in thousands):

	<u>Backlog as of June 30, 2009</u>	<u>Backlog as of June 30, 2010</u>	
	<u>Total</u>	<u>Total</u>	<u>Amount estimated to not be recognized within 12 months</u>
T&D	\$ 232,133	\$ 124,084	\$ 9,736
C&I	84,467	75,543	1,891
	<u>\$ 316,600</u>	<u>\$ 199,627</u>	<u>\$ 11,627</u>

Changes in backlog from period to period are primarily the result of fluctuations in the timing and revenue recognition of contracts. The decrease in backlog between 2009 and 2010 was primarily related to the contract completion process and resulting revenue recognition of a few significant contracts that were awarded during the third quarter of 2008 and have not yet been replaced by contracts of similar size.

Project Bonding Requirements

Approximately 37.6% and 33.2% of our business by revenue, for the six-month periods ended June 30, 2009 and 2010, respectively, required surety bonds or other means of financial assurance to secure contractual performance. If we fail to perform or pay subcontractors and vendors, the customer may demand that the surety provide services or make payments under the bond. We must reimburse the surety for any expenses or outlays it incurs. To date, we have not been required to make any reimbursements to our surety for claims against the bonds. As of June 30, 2010, the total amount of bonded backlog was approximately \$123.9 million, which represented approximately 62.1% of our backlog.

Consolidated Results of Operations

The following table sets forth selected consolidated statements of operations data and such data as a percentage of revenues for the period indicated:

(dollars in thousands)	Three months ended June 30,				Six months ended June 30,			
	2009		2010		2009		2010	
	Amount	Percent	Amount	Percent	Amount	Percent	Amount	Percent

Net income	\$ 4,315	2.6%	\$ 3,353	2.4%	\$ 7,198	2.4%	\$ 6,133	2.1%

Three Months Ended June 30, 2009 Compared to Three Months Ended June 30, 2010

Revenues. Revenues decreased \$22.6 million, or 13.9%, from \$162.9 million for the three months ended June 30, 2009 to \$140.3 million for the three months ended June 30, 2010. The majority of the decrease in revenues was the result of a significant decrease in revenues from a few large T&D projects (greater than \$10.0 million in contract value), as well as an overall reduction in revenues on smaller projects (less than \$3.0 million in contract value) in both reporting segments.

Gross Profit. Gross profit decreased approximately \$2.1 million, or 11.0%, from \$18.8 million for the three months ended June 30, 2009 to \$16.7 million for the three months ended June 30, 2010. As a percentage of overall revenues, gross profit margin increased from 11.5% for the three months ended June 30, 2009 to 11.9% for the three months ended June 30, 2010. For the three months ended June 30, 2010, our gross profit margin increased mostly due to margin increases on a few large transmission projects resulting from increased productivity levels compared to prior contract estimates. In addition, we also experienced other cost efficiencies in our operations that had a slight positive gross margin impact period over period. These positive impacts were partially offset by a decrease in overall margins in our C&I segment and on margins of our smaller T&D projects. These decreased margins were due to a combination of lower productivity levels compared to prior estimates on certain contracts and pricing pressures from increased competition on smaller projects. The decrease in gross profit dollars was mainly attributable to an overall reduction in contract revenues that contributed to a decrease of approximately \$2.6 million, which was partially offset by the overall profit margin increase for the three months ended June 30, 2010.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased approximately \$0.4 million, or 2.8%, from \$11.4 million for the three months ended June 30,

[Table of Contents](#)

2009 to \$11.0 million for the three months ended June 30, 2010. The decrease was primarily due to a net decrease in personnel costs, including payroll and certain employee benefit costs. As a percentage of revenues, these expenses increased from 7.0% for the three months ended June 30, 2009 to 7.9% for the three months ended June 30, 2010.

Gain on Sale of Property and Equipment. Gains from the sale of property and equipment increased \$0.1 million from \$0.2 million for the three months ended June 30, 2009 to \$0.3 million for the three months ended June 30, 2010. Gains from the sale of property and equipment were the result of routine sales of property and equipment that we determined were no longer useful or valuable to our ongoing operations.

Interest Income. Interest income decreased from \$0.1 million for the three months ended June 30, 2009 to less than \$0.1 million for the three months ended June 30, 2010 due to the overall decrease in interest rates earned on our average daily cash balance.

Interest Expense. Interest expense remained constant at \$0.2 million for the three months ended June 30, 2009 and 2010.

Provision for Income Taxes. The provision for income taxes was \$3.0 million for the three months ended June 30, 2009, with an effective tax rate of 40.6% compared to \$2.2 million for the three months ended June 30, 2010, with an effective tax rate of 40.0%. The decrease in effective tax rate was mainly due to an increase in certain federal tax credits available to us during the three months ended June 30, 2010 as compared to prior year.

Segment Results

The following table sets forth, for the periods indicated, statements of operations data by segment in thousands of dollars, segment net sales as percentage of total net sales and segment operating income as a percentage of segment net sales.

(dollars in thousands)	Three months ended June 30,			
	2009		2010	
	Amount	Percent	Amount	Percent
Contract revenues:				
Transmission & Distribution	\$ 124,873	76.6%	\$ 107,763	76.8%
Commercial & Industrial	38,050	23.4	32,522	23.2
Total	<u>\$ 162,923</u>	<u>100.0</u>	<u>\$ 140,285</u>	<u>100.0</u>
Operating income (loss):				
Transmission & Distribution	\$ 8,881	7.1	\$ 8,769	8.1
Commercial & Industrial	3,600	9.5	1,734	5.3
Total	<u>12,481</u>	<u>7.7</u>	<u>10,503</u>	<u>7.5</u>
Corporate	<u>(4,995)</u>	<u>(3.1)</u>	<u>(4,665)</u>	<u>(3.3)</u>
Consolidated	<u>\$ 7,486</u>	<u>4.6%</u>	<u>\$ 5,838</u>	<u>4.2%</u>

Transmission & Distribution

Revenues for our T&D segment for the three months ended June 30, 2009 were \$124.9 million compared to \$107.8 million for the three months ended June 30, 2010, a decrease of \$17.1 million or 13.7%. The decrease in revenues was mainly the result of a significant decrease in revenues generated from both large and small transmission projects, partially offset by an increase in smaller distribution projects.

[Table of Contents](#)

Operating income for our T&D segment for the three months ended June 30, 2009 was \$8.9 million compared to \$8.8 million for the three months ended June 30, 2010, a decrease of \$0.1 million or 1.3%. However, as a percentage of revenues, operating income increased from 7.1% for the three months ended June 30, 2009 to 8.1% for the three months ended June 30, 2010. The increase in operating income, as a percentage of T&D segment revenues, was mainly attributable to an overall increase in margins on a few large transmission projects of approximately \$2.0 million. This increase in margins from large transmission contracts during the current period is inclusive of the positive margin impact related to a reduction in the estimated completion costs on a few contracts. The increase in margins from large transmission contracts was partially offset by a reduction in margins on smaller T&D contracts of approximately \$1.6 million, which was due to a combination of lower productivity levels compared to prior estimates on certain contracts and pricing pressures from increased competition on smaller projects.

Commercial & Industrial

Revenues for our C&I segment for the three months ended June 30, 2009 were \$38.0 million compared to \$32.5 million for the three months ended June 30, 2010, a decrease of \$5.5 million or 14.5%. The decrease in revenues is due mainly to a reduction in revenues from smaller C&I projects, as we have seen an increase in competition in this area of the market which has impacted the number of projects awarded to us.

Operating income for our C&I segment for the three months ended June 30, 2009 was \$3.6 million compared to \$1.7 million for the three months ended June 30, 2010, a decrease of \$1.9 million or 51.8%. As a percentage of revenues, operating income decreased from 9.5% for the three months ended June 30, 2009 to 5.3% for the three months ended June 30, 2010. The decrease in operating income, as a percent of C&I segment revenues, was mainly attributable to an overall reduction in margins on large C&I contracts of approximately \$1.0 million. This decrease in contract margins was due to lower productivity levels compared to prior estimates on a few large contracts, as well as increased competition.

Six Months Ended June 30, 2009 Compared to Six Months Ended June 30, 2010

Revenues. Revenues decreased \$6.7 million, or 2.3%, from \$295.9 million for the six months ended June 30, 2009 to \$289.2 million for the six months ended June 30, 2010. The majority of the decrease in revenues was the result of a significant decrease in revenues from smaller projects in both reporting segments, partially offset by an increase in revenues from a few large projects in the C&I segment.

Gross Profit. Gross profit decreased \$3.9 million, or 11.0%, from \$35.8 million for the six months ended June 30, 2009 to \$31.9 million for the six months ended June 30, 2010. As a percentage of overall revenues, gross profit margin decreased from 12.1% for the six months ended June 30, 2009 to 11.0% for the six months ended June 30, 2010. For the six months ended June 30, 2010, we experienced pressures on margins due to lower productivity levels compared to prior estimates on certain contracts, coupled with overall margin pressures from increased competition. The decrease in gross profit was mainly attributable to an overall reduction in contract margins on smaller T&D projects of approximately \$4.9 million, which was partially offset by an overall net increase of approximately \$1.6 million in contract margins on larger projects period over period.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased \$1.7 million, or 7.4%, from \$23.3 million for the six months ended June 30, 2009 to \$21.6 million for the six months ended June 30, 2010. The decrease was primarily due to the elimination of a \$1.6 million severance liability as a result of the amended employment agreements of

[Table of Contents](#)

our six executive officers. As a percentage of revenues, these expenses decreased from 7.9% for the six months ended June 30, 2009 to 7.5% for the six months ended June 30, 2010.

Gain on Sale of Property and Equipment. Gains from the sale of property and equipment increased \$0.2 million from \$0.2 million for the six months ended June 30, 2009 to \$0.4 million for the six months ended June 30, 2010. Gains from the sale of property and equipment were the result of routine sales of property and equipment that we determined were no longer useful or valuable to our ongoing operations.

Interest Income. Interest income decreased from \$0.2 million for the six months ended June 30, 2009 to less than \$0.1 million for the six months ended June 30, 2010 due to the overall decrease in interest rates earned on our average daily cash balance.

Interest Expense. Interest expense remained constant at \$0.4 million for the six months ended June 30, 2009 and 2010.

Provision for Income Taxes. The provision for income taxes was \$4.9 million for the six months ended June 30, 2009, with an effective tax rate of 40.7% compared to \$3.9 million for the six months ended June 30, 2010, with an effective tax rate of 39.1%. The decrease in effective tax rate was mainly due to an increase in certain federal tax credits available to us, as well as a reduction in our accrual for uncertain tax positions due to the closure of a federal tax audit during the six months ended June 30, 2010.

Segment Results

The following table sets forth, for the periods indicated, statements of operations data by segment in thousands of dollars, segment net sales as percentage of total net sales and segment operating income as a percentage of segment net sales.

(dollars in thousands)	Six months ended June 30,			
	2009		2010	
	Amount	Percent	Amount	Percent
Contract revenues:				
Transmission & Distribution	\$ 224,550	75.9%	\$ 210,597	72.8%
Commercial & Industrial	71,308	24.1	78,577	27.2
Total	<u>\$ 295,858</u>	<u>100.0</u>	<u>\$ 289,174</u>	<u>100.0</u>
Operating income (loss):				
Transmission & Distribution	\$ 16,259	7.2	\$ 14,892	7.1
Commercial & Industrial	6,282	8.8	3,948	5.0
Total	<u>22,541</u>	<u>7.6</u>	<u>18,840</u>	<u>6.5</u>
Corporate	<u>(10,023)</u>	<u>(3.4)</u>	<u>(8,291)</u>	<u>(2.9)</u>
Consolidated	<u>\$ 12,518</u>	<u>4.2%</u>	<u>\$ 10,549</u>	<u>3.6%</u>

[Table of Contents](#)

Transmission & Distribution

Revenues for our T&D segment for the six months ended June 30, 2009 were \$224.6 million compared to \$210.6 million for the six months ended June 30, 2010, a decrease of \$14.0 million or 6.2%. The decrease in revenues was the result of a significant decrease in revenues from smaller transmission projects, partially offset by an increase in revenues from smaller distribution projects. Revenues from transmission projects represented 75.4% and 66.2% of T&D segment revenue for the six months ended June 30, 2009 and 2010, respectively. Additionally, for the six months ended June 30, 2009, measured by revenue in our T&D segment, we provided 32.7% of our T&D services under fixed price contracts, as compared to 24.8% for the six months ended June 30, 2010.

Operating income for our T&D segment for the six months ended June 30, 2009 was \$16.3 million compared to \$14.9 million for the six months ended June 30, 2010, a decrease of \$1.4 million or 8.4%. As a percentage of revenues, operating income decreased from 7.2% for the six months ended June 30, 2009 to 7.1% for the six months ended June 30, 2010. The decrease in operating income in the T&D segment was mainly attributable to an overall reduction in margins on smaller T&D contracts of approximately \$4.9 million, which was partially due to lower productivity levels compared to prior estimates on certain contracts, as well as increased competition in bidding activity. The decrease in margins on smaller contracts was partially offset with an overall increase in margins on large transmission contracts of approximately \$4.1 million. This increase in margins from large transmission contracts during the current period is inclusive of the positive margin impact related to a reduction in the estimated completion costs on a few contracts.

Commercial & Industrial

Revenues for our C&I segment for the six months ended June 30, 2009 were \$71.3 million compared to \$78.6 million for the six months ended June 30, 2010, an increase of \$7.3 million or 10.2%. The increase in revenues is due mainly to the significant increase in revenues derived from a few large projects, partially offset by an overall decrease in revenues from smaller projects. Additionally, for the six months ended June 30, 2009, measured by revenue in our C&I segment, we provided 44.3% of our services under fixed price contracts, as compared to 26.4% for the six months ended June 30, 2010.

Operating income for our C&I segment for the six months ended June 30, 2009 was \$6.3 million compared to \$3.9 million for the six months ended June 30, 2010, a decrease of \$2.3 million or 37.2%. As a percentage of revenues, operating income decreased from 8.8% for the six months ended June 30, 2009 to 5.0% for the six months ended June 30, 2010. The decrease in operating income in the C&I segment was mainly attributable to an overall reduction in margins on large C&I contracts of approximately \$2.5 million. This decrease in contract margins was due to lower productivity levels compared to prior estimates on a few large contracts, as well as increased competition.

Liquidity and Capital Resources

As of June 30, 2010, we had cash and cash equivalents of \$44.9 million, positive working capital of \$80.3 million and long-term liabilities in the amount of \$46.8 million, which consisted of the long-term portion of our term loan facility, deferred income taxes and deferred compensation obligations. We also had a \$15.0 million letter of credit outstanding under the Credit Agreement. During the six months ended June 30, 2010, consolidated operating activities of our business resulted in net cash flows generated from operations of \$13.4 million compared to net cash generated from operations of \$16.6 million for the six months ended June 30, 2009. Cash flows from operations is primarily influenced by demand for our services, operating margins and the type of services we provide our customers. During the six months ended June 30, 2010, we used net cash in investing activities of \$6.7 million, including \$7.1 million used for capital expenditures, offset by approximately \$0.5 million of proceeds from the sale of property and equipment. During the six months ended June 30, 2010, we

[Table of Contents](#)

generated net cash from financing activities of \$0.6 million, resulting primarily from net cash received from the exercise of stock options and the related tax benefits.

The changes in various consolidated balance sheet accounts (such as, accounts receivable, costs and estimated earnings in excess of billings on uncompleted contracts, accounts payable, and billings in excess of costs and estimated earnings on uncompleted contracts) are due to normal timing fluctuations in our operating activities.

We anticipate that our cash and cash equivalents on hand, the \$60.0 million borrowing availability under the Credit Agreement, and our future cash flow from operations will provide sufficient cash to enable us to meet our future operating needs, debt service requirements, and planned capital expenditures. We expect that our total capital spending in 2010 will be less than our 2009 capital spending. Although we believe that we have adequate cash and availability under our credit facility to meet these needs, our involvement in any large-scale initiatives to rebuild the United States electric power grid may require additional working capital, depending upon the size and duration of the project and the financial terms of the underlying agreement.

Debt Instruments

On August 31, 2007, we entered into an agreement for a \$125.0 million senior secured credit facility which provides for a \$75.0 million revolving credit line (which may be increased or decreased in accordance with the terms of the related credit agreement) and a \$50.0 million term loan facility. At our option, borrowings under the Credit Agreement bear interest at either (1) the greater of a prime rate or the federal funds rate plus a spread based upon our leverage ratio or (2) an adjusted London Interbank Offered Rate ("LIBOR") plus a spread based upon our leverage ratio. There were \$30.0 million of borrowings outstanding under the facility accruing interest at 1.375% (which is equal to an adjusted one-month LIBOR plus a spread of 1.0%) at June 30, 2010. As of June 30, 2010, we had a \$15.0 million letter of credit outstanding, which reduced our borrowing capacity under the revolving credit line. The Credit Agreement expires on August 31, 2012. We had \$60.0 million available under the Credit Agreement as of June 30, 2010.

The terms of the Credit Agreement require, among other things, that we adhere to a maximum leverage ratio and maintain a minimum EBITDA-based interest coverage ratio, both of which are defined under the Credit Agreement and determined on a rolling four consecutive quarter basis. The EBITDA-based interest coverage ratio covenant requires us to have a ratio of EBITDA to interest expense of not less than 3.0 to 1.0. We are also required to have a leverage ratio of no more than 3.0 to 1.0. As of June 30, 2010, our interest coverage ratio was in excess of 49.0 to 1.0 and our leverage ratio was less than 1.0 to 1.0, both within the required covenant levels permitted under the Credit Agreement.

The Credit Agreement also includes other specific limits or restrictions on additional indebtedness, liens and capital expenditure activity. Our obligations under the Credit Agreement are secured by a lien on all of our property (including the capital stock of our subsidiaries) other than any property subject to a certificate of title, subject to a lease or similar interest and our real property and fixtures. As of June 30, 2010, we were in compliance with all applicable debt covenants.

Off-Balance Sheet Transactions

As is common in our industry, we have entered into certain off-balance sheet arrangements in the ordinary course of business that result in risks not directly reflected in our balance sheets. Our significant off-balance sheet transactions include liabilities associated with non-cancelable operating leases, letter of credit obligations and surety guarantees entered into in the normal course of business. We have not engaged in any off-balance sheet financing arrangements through special purpose entities.

[Table of Contents](#)

Leases

We enter into non-cancelable operating leases for many of our facility, vehicle and equipment needs. These leases allow us to conserve cash by paying a monthly lease rental fee for the use of facilities, vehicles and equipment rather than purchasing them. We may decide to cancel or terminate a lease before the end of its term, in which case we are typically liable to the lessor for the remaining lease payments under the term of the lease.

We have guaranteed the residual value of the underlying assets under certain of our equipment operating leases at the date of termination of such leases. We have agreed to pay any difference between this residual value and the fair market value of each underlying asset as of the lease termination date. As of June 30, 2010, the maximum guaranteed residual value was approximately \$1.4 million. We believe that no significant payments will be made as a result of the difference between the fair market value of the leased equipment and the guaranteed residual value. However, there can be no assurance that future significant payments will not be required.

We typically have purchase options on the equipment underlying our long term operating leases and many of our short term rental arrangements. We continue to exercise many of these purchase options as the need for equipment is on-going and the purchase option price is attractive.

Letters of Credit

Some of our vendors may require letters of credit to ensure reimbursement for amounts they are disbursing on our behalf, such as to beneficiaries under our insurance programs. In addition, from time-to-time, certain customers may require us to post letters of credit to ensure payment to our subcontractors and vendors under those contracts and to guarantee performance under our contracts. Such letters of credit are generally issued by a bank or similar financial institution. The letter of credit commits the issuer to pay specified amounts to the holder of the letter of credit if the holder claims that we have failed to perform specified actions in accordance with the terms of the letter of credit. If this were to occur, we would be required to reimburse the issuer of the letter of credit. Depending on the circumstances of such a reimbursement, we may also have to record a charge to earnings for the reimbursement. We do not believe that it is likely that any claims will be made under any letter of credit in the foreseeable future.

As of June 30, 2010, we had a \$15.0 million letter of credit outstanding under the Credit Agreement to secure obligations under our casualty insurance program.

Surety Bonds

Many customers, particularly in connection with new construction, require us to post performance and payment bonds issued by a financial institution known as a surety. These bonds provide a guarantee to the customer that we will perform under the terms of a contract and that we will pay subcontractors and vendors. If we fail to perform under a contract or to pay subcontractors and vendors, the customer may demand that the surety make payments or provide services under the bond. We must reimburse the surety for any expenses or outlays it incurs. Under our continuing indemnity and security agreement with the surety, with the consent of our lenders under the Credit Agreement, we have granted security interests in certain of our assets to collateralize our obligations to the surety. We may be required to post letters of credit or other collateral in favor of the surety or our customers. Posting letters of credit in favor of the surety or our customers would reduce the borrowing availability under the Credit Agreement. To date, we have not been required to make any reimbursements to the surety for bond-related costs. We believe that it is unlikely that we will have to fund significant claims under our surety arrangements in the foreseeable future. As of June 30, 2010, an aggregate of approximately \$497.8 million in original face amount of bonds issued by the surety were outstanding. Our estimated cost to complete these bonded projects was approximately \$112.6 million as of June 30, 2010.

New Accounting Pronouncements

For a discussion regarding new accounting pronouncements, please refer to Note 2. "Basis of Presentation—Recently Issued Accounting Pronouncements" in the accompanying Notes to Consolidated Financial Statements.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with U.S. GAAP. The preparation of these consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities known to exist at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. We evaluate our estimates on an ongoing basis, based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. There can be no assurance that actual results will not differ from those estimates. For further information regarding our critical accounting policies and estimates, please refer to Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies" included in the 2009 Annual Report.

Cautionary Statement Concerning Forward-Looking Statements and Information

We are including the following discussion to inform you of some of the risks and uncertainties that can affect our company and to take advantage of the protections for forward-looking statements that applicable federal securities law affords.

Various statements contained in this quarterly report on Form 10-Q are forward-looking statements, including those that express a belief, expectation, or intention, as well as those that are not statements of historical fact. The forward-looking statements may include projections and estimates concerning the timing and success of specific projects and our future production, revenue, income and capital spending. Our forward-looking statements are generally accompanied by words such as "estimate," "project," "predict," "believe," "expect," "anticipate," "potential," "plan," "goal" or other words that convey the uncertainty of future events or outcomes. The forward-looking statements in this quarterly report on Form 10-Q speak only as of the date of this quarterly report on Form 10-Q; we disclaim any obligation to update these statements (unless required by securities laws), and we caution you not to rely on them unduly. We have based these forward-looking statements on our current expectations and assumptions about future events. While our management considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties, most of which are difficult to predict and many of which are beyond our control. These and other important factors, including those discussed in Item 1A. "Risk Factors" in our 2009 Annual Report, may cause our actual results, performance or achievements to differ materially from any future results, performance or achievements expressed or implied by these forward-looking statements.

These risks, contingencies and uncertainties include, but are not limited to, the following:

- our operating results may vary significantly from year to year;
- we are unable to predict the impact of the current economic conditions in the financial markets and the resulting constraints in obtaining financing on our business and financial results;
- the recent instability of the financial markets and adverse economic conditions could have a material adverse effect on the ability of our customers to perform their obligations to us;
- demand for our services is cyclical and vulnerable to industry downturns and regional and national downturns, which may be amplified by the current economic conditions;

[Table of Contents](#)

- our industry is highly competitive;
- we may be unsuccessful in generating internal growth;
- many of our contracts may be canceled upon short notice and we may be unsuccessful in replacing our contracts if they are canceled or as they are completed or expire;
- backlog may not be realized as part of our future revenues or may not result in profits;
- the timing of new contracts or termination of existing contracts may result in unpredictable fluctuations in our cash flow and financial results;
- the Energy Policy Act of 2005 may not result in increased spending on electric power transmission infrastructure and the current economic conditions in the United States may lead to cancellations or delays of related projects;
- we may not benefit from the passage of the American Recovery and Reinvestment Act of 2009;
- our use of percentage-of-completion accounting could result in a reduction or elimination of previously recognized profits;
- our actual costs may be greater than expected in performing our fixed price and unit price contracts;
- our financial results are based upon estimates and assumptions that may differ from actual results;
- we insure against many potential liabilities and our reserves for estimated losses may be less than our actual losses;
- we may incur liabilities or suffer negative financial impacts relating to occupational health and safety matters;
- we may pay our suppliers and subcontractors before receiving payment from our customers for the related services;
- we extend credit to customers for purchases of our services, and in the past we have had, and in the future we may have, difficulty collecting receivables from customers that experience financial difficulties;
- we derive a significant portion of our revenues from a few customers, and the loss of one or more of these customers could have a material adverse effect on our consolidated financial condition, results of operations and cash flows;
- a significant portion of our business depends on our ability to provide surety bonds, and we may be unable to compete for or work on certain projects if we are not able to obtain the necessary surety bonds;
- our bonding requirements may limit our ability to incur indebtedness;
- inability to hire or retain key personnel could disrupt business;
- work stoppages or other labor issues with our unionized workforce could adversely affect our business;
- our business is labor intensive and we may be unable to attract and retain qualified employees;
- inability to perform our obligations under engineering, procurement and construction contracts may adversely affect our business;

[Table of Contents](#)

- we require subcontractors to assist us in providing certain services, and we may be unable to retain the necessary subcontractors to complete certain projects;
- our business growth could outpace the capability of our internal infrastructure;
- seasonal and other variations, including severe weather conditions, may cause significant fluctuations in our consolidated financial condition, results of operations and cash flows;
- we are subject to risks associated with climate change;
- our failure to comply with environmental laws could result in significant liabilities;
- increases in the cost of certain materials and fuel could reduce our operating margins;
- we could incur liquidated damages or other damages if we do not complete our projects in the time allotted under the applicable contract, or we may be required to perform additional work if our services do not meet certain standards of quality;
- opportunities within the governmental arena could lead to increased governmental regulation applicable to us;
- if we fail to integrate future acquisitions successfully, our consolidated financial condition, results of operations and cash flows could be adversely affected;
- our business may be affected by difficult work environments;
- failure to maintain effective internal control over financial reporting could have a material adverse effect on our business, our operating results and the value of our common stock; and
- provisions in our organizational documents and under Delaware law could delay or prevent a change of control of our company, which could adversely affect the price of our common stock.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of June 30, 2010, we were not parties to any derivative instruments. We did not use any material derivative financial instruments during the six months ended June 30, 2009 and 2010, including trading or speculation on changes in interest rates or commodity prices of materials used in our business.

We grant credit under normal payment terms, generally without collateral, to our customers, which include electric power companies, governmental entities, general contractors and builders, owners and managers of commercial and industrial properties located in the United States. Consequently, we are subject to potential credit risk related to changes in business and economic factors throughout the United States. However, we generally have certain statutory lien rights with respect to services provided. Under certain circumstances such as foreclosures or negotiated settlements, we may take title to the underlying assets in lieu of cash in settlement of receivables. As of June 30, 2010, one customer represented 31.9% of total consolidated accounts receivable (excluding the impact of allowance for doubtful accounts). No other customer represented more than 10.0% of our total consolidated accounts receivable as of June 30, 2010. For the six months ended June 30, 2010, revenues from two of our customers individually exceeded 10.0% of our total consolidated revenues, with combined revenues from the two accounting for approximately 33.0% of our total consolidated revenues. For the six months ended June 30, 2009, no individual customer exceeded 10.0% of our total consolidated revenues. Management believes the terms and conditions in its contracts, billing and collection policies are adequate to minimize the potential credit risk.

Borrowings under the Credit Agreement are based upon an interest rate that will vary depending upon the prime rate, the federal funds rate and LIBOR. If we borrow additional amounts under the Credit Agreement, the interest rate on those borrowings will also be variable. If the prime rate, federal

funds rate or LIBOR rise, our interest payment obligations will increase and have a negative effect on our cash flow and financial condition. We currently do not maintain any hedging contracts that would limit our exposure to variable rates of interest. As of June 30, 2010, we had \$30 million of borrowings outstanding under the Credit Agreement. The Credit Agreement currently accrues annual interest at one-month LIBOR in effect at each month end plus a spread of 1.00%, based upon our current leverage ratio, as defined in the Credit Agreement. A 0.125% increase or decrease in the interest rate would have the effect of changing our interest expense by \$37,500 per year.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in the reports we file or submit pursuant to the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Management, together with our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e) and 15d-15(e)) as of the end of the period covered by this quarterly report on Form 10-Q. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance related to the matters stated in the above paragraph.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the second quarter ended June 30, 2010 that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal control over financial reporting will detect or prevent all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

PART II.—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

For further discussion regarding legal proceedings, please refer to Note 7. "Commitments and Contingencies—Litigation and Other Legal Matters" in the accompanying Notes to Consolidated Financial Statements.

ITEM 1A. RISK FACTORS

As of the date of this filing, there have been no material changes to the risk factors previously discussed in Item 1A to Part I of our 2009 Annual Report. An investment in our common stock involves various risks. When considering an investment in our company, you should carefully consider all of the risk factors described in our 2009 Annual Report. These risks and uncertainties are not the only ones facing us and there may be additional matters that are not known to us or that we currently consider immaterial. All of these risks and uncertainties could adversely affect our business, financial condition or future results and, thus, the value of our common stock and any investment in our company.

CERTIFICATIONS

Certification of Principal Executive Officer

I, William A. Koertner, certify that:

1. I have reviewed this quarterly report on Form 10-Q of MYR Group Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and the internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATIONS

Certification of Principal Financial Officer

I, Marco A. Martinez , certify that:

1. I have reviewed this quarterly report on Form 10-Q of MYR Group Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and the internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
